**Public Water Supply District #2 – Peer Review Report Presentation**

September 4, 2015 – The Water District’s consultant, Black and Veatch, will provide a presentation to the public summarizing all of their peer review findings of the Lake Saint Louis Sewer Program on October 8<sup>th</sup> at 7:00 PM. The presentation will be held at the Lake Saint Louis Banquet Center, 10604 Veterans Memorial Parkway in Lake Saint Louis.

In June, Black and Veatch, a leading global engineering, consulting and construction company, began an evaluation of the Lake St. Louis Sewer Improvement Program, an evaluation of various other alternatives, and an evaluation of possible impacts on property values from the Program and the various alternatives. The firm was selected, with assistance and input from community members who previously served on the Lake Saint Louis Sewer Program Advisory Committee, as the most qualified professional engineering firm from a larger pool of interested firms. A not-to-exceed contract amount of \$128,869.00 was approved for the review and evaluation work.

The Lake St. Louis Sewer Improvement Program is a proactive effort to evaluate and potentially upgrade or replace the sewers that currently run underneath both Lakes St. Louis and St. Louise.
