**Public Water Supply District #2 Board Evaluating Peer Review Consultants
Part of Lake St. Louis Sewer Improvement Program**

February 5, 2015 – Officials from the Public Water Supply District #2 of St. Charles County have announced that at the March 4th, 2015 meeting Water District Board members will be interviewing three engineering firms, one of which will be selected to complete a review of the current Lake St. Louis Sewer Improvement Program. The three engineering firms to be interviewed were selected from a larger pool of interested firms with assistance from community members who previously served on the Lake St. Louis Sewer Program Advisory Committee. A selection of the engineering firm by the Board is anticipated at the April 1st, 2015 Board meeting.

The Lake St. Louis Sewer Improvement Program is a proactive effort to upgrade the sewers that currently run underneath both Lakes St. Louis and St. Louise. Construction was to be phased over the next 12 years at a cost of \$28 million.
