**Public Water Supply District #2 Board Selects Peer Review Consultant
Part of Lake St. Louis Sewer Improvement Program**

April 3, 2015 – At the April 1st, 2015 Board Meeting of Public Water Supply District #2 of St. Charles County, Board Members directed staff to obtain a proposal for professional engineering services from Black and Veatch for the preparation of a peer review of the current Lake St. Louis Sewer Improvement Program.

Black and Veatch was selected as the most qualified professional engineering firm from a larger pool of interested firms with assistance from community members who previously served on the Lake St. Louis Sewer Program Advisory Committee.

The Lake St. Louis Sewer Improvement Program is a proactive effort to upgrade the sewers that currently run underneath both Lakes St. Louis and St. Louise. Construction was to be phased over the next 12 years. To learn more about the Lake St. Louis Sewer Improvement Program visit <http://waterdistrict2.com/projects/>.
